

CHEMBAYO

Chemical / Biological Escape Mask

This respiratory protective device is designed for evacuation in case of an emergency involving weaponized chemical and biological agents. The CHEMBAYO mask provides users with short-term respiratory protection against low concentrations of various toxins, with an emphasis on protection against nerve and blood agents, combined with HEPA filtration capabilities (P3) that filter out particles and aerosols, greatly reducing respiratory exposure.

The CHEMBAYO is specifically designed to meet the needs of the following sectors:

Defense and military

Law enforcement agencies

Emergency services
